

The GNCH Transformation Project

Ipaphod - the beautiful Ifugao word meaning "to set things right, to make things good, to fix, to improve, to reset to standard" is often said by the Ifugaos as a blessing of recovery and healing.

The Good News Clinic and Hospital (GNCH) is a 69-year-old medical facility in Banaue, Ifugao dedicated to healing bodies and winning souls to Christ.

Our Challenges: Downgraded to infirmary in 2010 due to resource limitations; structures damaged and threatened by calamities and land erosion; and shortages in equipment, trained personnel, and sustainable operations.

Our Goal: To transform GNCH into a sustainable, resilient, and Christ-centered hospital that meets modern healthcare standards while nurturing the next generation of medical leaders.

Plan of Action: Restore our Hospital • Rebuild our Foundation • Retool the Next Generation • Renew our System • Reaffirm our Message

PLEASE HELP:

☐ GNCH DONOR DEVELOPMENT PROGRAM - Yes, I would like to become a regular donor to help sustain the hospital's daily operations and long-term growth.
